

CHENANGO HEALTH NETWORK STRATEGIC PLAN

Mission

Chenango Health Network is a rural health network whose objectives are to increase access to health and wellness information and to healthcare services. We serve diverse individuals and families and work to effect change at the community level.

Vision

Chenango Health Network engages with all stakeholders in Chenango County. The organization serves as a community 'convener' to mobilize stakeholders to address community issues and solve problems. CHN is well known as a knowledgeable and effective resource to collaborating organizations, community leaders and individuals/families in need of assistance. CHN provides relevant programs and services that approach physical, emotional and behavioral health and wellness holistically. The agency is financially sustainable and has a workforce that is compassionate, well-trained, motivated and competitively compensated. CHN plays a leadership role in the Region.

Highest Priority Goals

1. Increase community awareness of all services offered.
2. Locate a new space for the CHN office in Norwich that is more community-facing, accessible and reduces occupancy costs.
3. Manage the agency to promote financial stability and sustainability.

High Priority Goals

4. Foster a positive work environment for employees.
5. Bring an effective, functional *Building Healthy Families* Program to Chenango County.
6. Join Associations and Grassroots groups to advocate for State and Federal policy reforms.

Medium Priority Goals

7. Replace DSRIP funding for Emergency Department Navigator and Care Transitions programs.
8. Enhance food security and promptly respond to hunger.
9. Facilitate access to necessary transportation.
